Dear friends and colleagues,

The 52nd Annual Scientific Meeting of the European Society of Paediatric Nephrology is to be held in Ljubljana from September 16 – 19, 2020.

On behalf of the ESPN 2020 Scientific Committee, we are proud to present the “HISTOPATHOLOGY” Pre-Congress course.

The course objective is to provide an overview of different aspects of Nephropathology, both on the native kidney and in the setting of renal transplantation. We have chosen eminent speakers and unusual cases to give a broad and informative overview to participants.

Moreover, attendants will have the opportunity to share with the expert pathologists leading the course a particularly challenging case, by preparing a maximum of 5 slides with the clinical history and relevant renal biopsy images, to be sent to francesca.diomedi@opbg.net.

Interaction between speakers and participants will be encouraged.

With our best regards,

Dr Francesca Diomedi-Camassei
Prof Jan Becker
